Bug Report Of Sushastho User App

SL No.	Section/place	Description	Expected result	Status	priority	Tester Name	Developer Name	Screenshot/Video
1	Sign up >Contact Field	In Contact button , it would be better if droupdown icon can work.	Dropdown icon should clickable and menu will be showing.	Not Started	Medium	Keya Hazra	Developer 1	Dropdown Icon
2	Sign up >Contact Field	It would be better if maximum and minimum lenghth is fixed	Maximum length for bangladeshi contact number is 11	Not Started	Medium	Keya Hazra	Developer 2	
3	Sign up> FistName & LastName	FirstName and LastName field is taking Special character as well as numbers	FirstName and LastName field only contain letters	Not Started	High	Keya Hazra	Developer 2	name field
4	Sign up> Gender modal & Blood group modal	It will look good if the cancel button located left to the save button.	If cancel buuton is on left side to save button that will be more user convenient.	Not Started	Medium	Keya Hazra	Developer 1	modal
5	Sign up & login	If i click any of the input field then automatically every filed's warning is showing	it will look good if only seleted input field is showing warning message.	Not Started	High	Keya Hazra	Developer 1	Filed warnig
6	login>User Profile	It will be good if modal will open after clicking anywhere in that perticular section	Modal should be open after clicking anywhere that would be more user friendly	Not Started	Medium	Keya Hazra	Developer 1	edit section
7	Login>Doctors in our platforms	Doctors personal details is not properly Showing	Padding and margin should be in proper way	Not Started	Medium		Developer 1	Error

suggestions or recommendations for the app

Well to be very honest, i liked the concept of sushastho app and also
i liked the design but there are some alignment issues,
design break. and some functional portion is not user convinent
I think only need to test this app as much as you can.
